WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON PETITIONS FOR EXTENSION OF THE DEADLINE FOR SUPPORT OF ROAMING BY WIRELESS END-USERS WITH PORTED OR POOLED NUMBERS

(CC Docket No. 99-200; CC Docket No. 95-200; WT Docket No. 01-184)

Comments Due: February 13, 2003
Reply Comments Due: February 27, 2003

Pine Belt PCS, Inc. and Pine Bell Cellular, Inc. (Pine Bell) and Kodiak Wireless, LLC (Kodiak) seek partial waivers and extensions of the November 24, 2002, deadline for covered Commercial Mobile Wireless Service (CMRS) providers to provide nationwide roaming support for end-users with pooled or ported numbers.¹

Under Commission rules and orders, covered CMRS providers that operate within the largest 100 Metropolitan Statistical Areas (MSAs) are required to offer local number portability (LNP), which allows customers to retain their phone numbers when changing carriers, by November 24, 2003, and must participate in thousands-block pooling by November 24, 2002.² In addition, all covered CMRS providers must support nationwide roaming by users with ported or pooled numbers by November 24, 2002.³ This requirement was intended to ensure that if a customer with a ported or pooled number roamed into another CMRS carrier's network, that CMRS carrier would support that customer's ability to make and receive calls.⁴

Pine Belt states that it is a small, rural CMRS provider that is unable to meet the November 24, 2002, deadline for support of roaming by users with pooled or ported numbers. Pine Belt claims that, despite diligent efforts to obtain funds to cover the costs of upgrading its equipment, it has not yet succeeded in doing so. Pine Belt states that, without assurance of funding, it cannot purchase the necessary upgrades because revenues from current operations alone will not support the additional costs.

Pine Belt therefore requests a one-year extension of the November 24, 2002 deadline for roaming support. It asserts that it has received "promising indications" from a lender, and that it anticipates that it will be able to obtain funding and purchase, install, and test the necessary upgrades within six to eight months after the deadline. It requests an additional one-year "out of an abundance of caution," and suggests that it file a bi-monthly report on its progress during the extension period.

In addition to the extension of the deadline for support of roaming, Pine Belt also requests a waiver or temporary extension of the Commission's requirement under 47 C.F.R. § 20.18(d) that carriers deliver valid call back numbers to Public Safety Answering Points in the areas where they are providing Phase I Enhanced 911 (E911) service.

Kodiak, another small, rural CMRS provider, similarly argues that it has been particularly burdened by the costs of providing roaming support for phones with pooled or ported numbers because of its limited resources. Kodiak asserts that these resources have already been strained by the need to meet other federal mandates such as E911.⁵ As a result, Kodiak asserts that it will not be able to meet the November 24, 2002, deadline and requests a partial waiver and an extension of the deadline to July 1, 2003.

We seek comment on the issues raised by the Petitions. Interested parties may file comments on or before February 13, 2003. Reply comments are due February 27, 2003. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies.⁶

This is a "permit but disclose" proceeding pursuant to § 1.1206 of the Commission's Rules.⁷ Ex parte presentations that are made with respect to the issues involved with regard to the Petition will be allowed but must be disclosed in accordance with the requirements of § 1.1206(b) of the Commission's Rules.⁸

Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. Generally, only one copy of an electronic submission must be filed. In completing the transmittal screen, filing parties should include their full name: Postal
